PV101 Day 1 Quiz Answer Key

Instructor Copy | 2026-07-06

Multiple Choice

1. What does PV stand for?
Correct answer: B

2. Which part stores energy for later use?
Correct answer: C

3. Which phrase best describes the class rule?
Correct answer: C

4. In a small RV solar system, which part usually comes between the solar module and the battery?
Correct answer: A

5. What is a load?
Correct answer: A

6. Which type of electricity is common for batteries and solar modules?
Correct answer: A

7. Why do we label wires and parts?
Correct answer: B

8. What should a student do if they are unsure about a tool, part, or wire?
Correct answer: A

Short Answer Guidance

- **9:** Accept answers that mention safety, accuracy, troubleshooting, avoiding assumptions, or helping the next person understand the system.
- **10:** Accept any realistic RV load, such as lights, fan, water pump, refrigerator, USB charger, outlets, laptop charger, inverter load, or microwave.

Instructor Reflection

- If most students miss PV, reteach the word and connect it to light.
- If most students miss charge controller, redraw the system path before Day 2.
- If most students choose guessing/labels, slow down and repeat the verification theme.
