RCS08 | Morning Quiz - Answer Key

CTS Cohort 6 | CTS Day 16 | 2026-07-30 | 10:00 AM-3:00 PM | 6 students

Final Practical, Handoff, and RCS Closeout

1. What is the core RCS professional rule?

A professional does not guess. A professional checks, protects, and verifies.

2. How is wall square checked?

Compare diagonal measurements and verify dimensions.

3. What must happen before continuity testing?

The circuit must be de-energized and isolated.

4. Name the required capstone electrical devices.

Two outlets, one switch, and one light point.

5. Why complete a pre-cover inspection?

To verify hidden work before drywall conceals it.

6. What is the purpose of a punch list?

To document and close incomplete, defective, or unverified work.

7. What completes troubleshooting?

Correction, retest, documentation, and approval.

8. What should a professional handoff include?

Scope, key decisions, verified results, evidence, and unresolved items.

9. Does course completion authorize unlicensed field electrical or plumbing work?

No.

10. What should a student do when unsure during practical work?

Stop, protect the work area, verify what is known, and ask for appropriate clarification.

Scoring guidance

One point per item. Accept technically equivalent wording. Use errors to reteach before lab release. Safety-boundary errors must be corrected explicitly before the student begins the related task.
