PV101 Day 1 Whiteboard Plan

First Day Orientation | Instructor Quick Board

Board 1: Welcome

Write this
PV101 Day 1
Solar starts with observation.
We measure and verify. We do not guess.

Board 2: What PV Means

Write this
PV = Photovoltaic
Photo = light
Voltaic = electricity
PV turns light into electrical energy.

Board 3: System Path

Write this
Sun -> Solar Module -> Charge Controller -> Battery -> Fuse Panel -> DC Loads
Battery -> Inverter -> AC Loads

Board 4: RV Loads

Write this
Draw three columns:
Load | DC / AC / Unknown | Questions
Fill this with student examples from the room.

Board 5: Exit Ticket

Write this
1. One thing I understand
2. One thing still confusing
3. One thing I want to learn
